# BAKER WANTS NO

Says Only Point Is Ability to Equip and Transport Soldiers

THIS IS THE ONLY RESTRICTION

Secretary of War Does Not Discuss Size of Army Before Committee

Washington, May 3. Secretary Baker at a hearing yesterday before the House military affairs committee, in confidential session, asked that Congress grant unlimited power for the creation of an army of whatever size necessary for the prosecution of the war. He told the comnittee that it would be ill-advised to re strict the number of men to be utilized and that the size of the army should be increased in the discretion of the gov ernment, as transportation and equip

ment facilities warrant.

Mr. Baker indicated he would submit a proposed measure, probably as an amendment to the draft law, to grant the unlimited authority asked. Under the existing draft law, as construed by Chalrman Dent of the military committee and others, there is authority for use of 1,000,000 men under draft. Mr. Dent Wednesday introduced a bill to authorize a draft total of 4,000,000 men, which, with volunteers already in the service, would make an ultimate maximum strength of 5,000,000 men.

Secretary Baker was questioned by the committee regarding his views to in-creasing the draft age. He said he was studying the subject and had made no

The House military committee will immediately resume consideration of the annual army appropriation bill and Mr. Baker's idea is that it - all provide only for the number immediately foreseen. Indications are that it will carry provision for equipment, transportation, pay and other expenses of approximately 3, 000,000 men, as part of a specific program, but as a furtherance of a blanket authority plan involving use of all or part of the funds appropriated and sup-plemental appropriations later on as their need may become apparent.

Under the new classification scheme there are understood to be 1,800,000 men immediately available for active military service in Class I. That estimate i pased on the returns of numerous states and the law of average. It excludes all men rated as fit only for limited special service, all delinquents, slated for immediate induction into Class 1 when ap prehended, and all the so-called medical cases, the men who will be fit for active service after operations or medical treat ment to correct minor physical defects. Behind that, also, stand the men who have reached twenty-one years since the draft act was passed, and who will be brought in under pending amendments. Probably the total of effectives in Class will prove to be 2,500,000 men when

the definite figures are available. The number of men scheduled to be called to the colors this month under the selective service act has been raised to 250,000. Last month 150,000 were mo bilized. At this rate half of the 800, 000 which the department, before th German drive was launched, had planned to call during the present year, will have been called out in two months.

## WILLIAMSTOWN

Brookfield and Williamstown Soldiers Meet on Front Line.

Mrs. G. F. Martin has received a letter from her son, John Martin, which was written March 30. The young man's address is John L. Martin Co. I. 104th Inf., 26th Div., 52 brigade, American E. F.

The letter follows: since I wrote last and I know you are packed better than heretofore so as to

which made things pretty miserable. The Germans weren't very bad there. over there. They gave us a few hundred gas shells one night, but there were no Fourth Monthly Educational Butter

casualties.
Our battalion has the best record of Rode about one day and then hiked four days. Only had three men drop out on the hike, but, believe me, some of us felt

like quitting most any time. I got a letter from Harrison a few days ago. He seems anxious to get over here. Has Robert been called yet? There are some of the draftees over here now. I met a number of Brookfield fellows over here while we were up on the line, also Frank Wilfore and Leon St. John.

I have received all the boxes you sent me, also the papers and tooth paste. Thanks very much. Have you got my time to wait for what little we get now Some say that we don't get any state pay now. Is it true or not? Don't worry. I will write as often as I P. S. You might send me some news-

GREENHOUSES MUST CURTAIL In Use of Coal During May and Close

papers and cigarettes, if you wish.

Next Winter. Boston, May 3.—Owners of private reen houses in New England were ordered yesterday by James J. Storrow, district fuel administrator, to curtail the use of coal during May and to arrange to

lose such places next winter. "We have asked the householder to put out his furnace and kitchen range fires on May I in order to save coal for the reserve necessary to tide us over next winter," Mr. Storrow announced. "In view of the fact that the present grave situation demands restriction this character, it seems reasonable to ask private greenhouse owners to reduce coal consumption to the extent, if possible, of doing away with them alto-

gether. It was suggested that plants of a persament nature be stored in commercial green houses.

Mr. and Mrs. Bert Gleason of Barton have received word that their son, Car-roll W. Gleason, muchine gun battalion, was slightly wounded in action April 30.
